Water Coolers and Drinking Fountains

Discover the professional's choice.™

DFC-20

ELKAY

TABLE OF CONTENTS

Elkay is sure to have a water cooler or drinking fountain that will meet, or exceed, your specifications. Select from a wide variety of coolers and fountains that meet **adult or child ADA** standards, as well as coolers that offer the added assurance of our *WaterSentry® Plus Filter System*.

A recent addition is our new **EZH2O™ Bottle Filling Station**. This new, innovative product line continues our commitment to delivering clean water and sustainable design. It provides a rapid fill of filtered water to quench thirst and minimize plastic bottle waste in the environment. Elkay offers the ideal cooler, fountain and bottle filling station for medical facilities, schools and universities, office buildings, airports, shopping malls, sports arenas and other high-traffic venues, for both indoor and outdoor installations.

At Elkay, we are always looking for ways to make great products even better. Superior quality and popular features combine with a vast array of available options, allowing our customers to find the right water cooler, drinking fountain, or bottle filling station for any application. As you browse through our catalog, you can easily identify available options specific to individual products by the icons shown below.

COLOR OPTIONS

Elkay's color tones have a quiet presence that makes them ideal choices for both new construction and retrofits. They are as durable as they are beautiful, with cabinets made from a tough vinyl bonded to steel, resulting in an impact resistant product that adds an enhanced decorative appearance to any environment.

Stainless Steel products (available at an additional cost) feature complete cabinet, panels and basin constructed of long-wearing, easy-care stainless steel with satin finish.

Although the color tones are reproduced as accurately as possible, you may want to order actual color samples.

How to Order Colors

Color options are available on select models only. Color availability is noted in model descriptions within the catalog.

ELKAY WATER COOLERS AND DRINKING FOUNTAINS ... THE PROFESSIONAL'S CHOICE!

- Elkay water coolers, drinking fountains and remote chillers are certified to **NSF/ANSI 61-Annex G, AB1953**
- Elkay coolers and fountains are manufactured with a waterway system utilizing copper components and **completely lead-free material**.
- **Flexi-Guard® Safety Bubbler** features contemporary styling and *a special anti-microbial agent* that is infused into the bubbler, for an extra level of security.
- **Filtrex System®** prevents larger impurities from entering the cooler.
- Most Elkay electric water coolers are listed by **Underwriters Laboratories Inc.** and comply with both Canadian and U.S. requirements
- Designed to meet **A.R.I. standard 1010**
- Elkay's Savanna, Illinois plant is **ISO 9001** registered.

THIRD PARTY **CERTIFIED** TO NSF/ANSI 61

C (UL) US

Table for estimating delivered G.P.H. of 50° F drinking water at various temperatures and water inlet temperatures.

Factor	1.58	1.15	0.84	1.53	1.08	0.80	1.40	1.00	0.75	1.25	0.92	0.65
Room Temperature ° F	70	70	70	80	80	80	90	90	90	100	100	100
Water Inlet Temperature ° F	70	80	90	70	80	90	70	80	90	70	80	90

Example: Water Cooler size – 8.9 G.P.H. (at Standard rating 90° F- 80° F). Desired condition – Ambient 80° F, water inlet 70° F. Estimated capacity = factor x G.P.H. (rated).
= 1.53 x 8.9
= 13.6 GPH

Suggested Bubbler Service Information

To determine the number of people that can be served, multiply the G.P.H. of your cooler by the standard bubbler service ratings below that best state your needs.

Installation	Standard Bubbler Service Rating*	Installation	Standard Bubbler Service Rating*
Offices	25	Light Mfg.	15
Hospitals	25	Heavy Mfg.	12
Schools	25	Hot Heavy Mfg.	10

*Based on Standard Rating Conditions of ARI Standard 1010.

NOTICE

Elkay ADA Coolers comply with the Americans with Disabilities Act (ADA) and Architectural Barriers Act (ABA) Accessibility Guidelines for Buildings and Facilities, when properly installed.

Check local codes for other requirements that might apply. Elkay Water Coolers and Drinking Fountains comply with and surpass the lead free definition in the Safe Drinking Water Act and Lead Contamination Control Act of 1988 and 1998.

Elkay Pressure-Type Water Coolers are designed to operate on **20** psi to **105** psi supply line pressure. If inlet pressure is above **105** psi, a pressure regulator must be installed in the supply line. Any damage caused by reason of connecting this product to supply line pressures lower than **20** psi or higher than **105** psi is not covered by the warranty.
A minimum 40 psi supply line pressure is required in special circumstances when both sides of a bi-level model are in use simultaneously, to ensure adequate stream height. Use of a water filter in this situation is not recommended. (Does not apply to non-refrigerated units.)
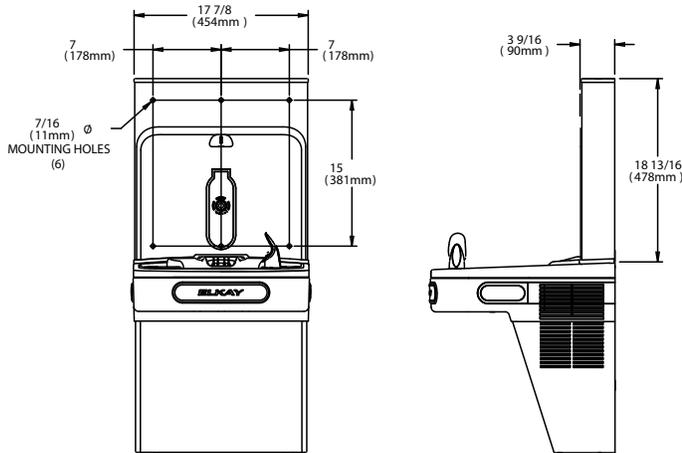

Visit us at elkayusa.com for most current warranty information.

Line drawings are for reference only. Please refer to the latest specification sheet for actual dimensions.

ELKAY®

EZH2O™ BOTTLE FILLING STATION

Standard Features

- **Available as:**
  - **Retro-fit Kit** which attaches to most 115V/60Hz existing **EZ pushbar-activated** water coolers to create a bottle filling station.
  - **Complete filtered water cooler and bottle filling station**
- Ideal for education, healthcare facilities, fitness clubs, and hospitality
- **Quick fill rate** is 1.1 gpm for refrigerated units and 1.5 gpm for non-refrigerated units; 3 times faster than a traditional drinking fountain
- The electronic sensor provides **touchless, sanitary operation;** just place and fill
- Automatic 30-second **shut-off timer**
- **New WaterSentry® Plus 3000 Gallon Filter** is included (Third party certified to NSF 42 and 53 for taste, odor and lead reduction)
- **Integrated Silver Ion Anti-microbial protection** against mold and mildew growth
- **Visual user interface display** includes:
  - **Filter Monitor** indicating when replacement is necessary
  - **Innovative Green Ticker™** counting the quantity of 16 oz. bottles saved from land fills for non-refrigerated units and 12 oz. bottles saved for refrigerated units
- Space-saving **ADA Design**

TUBULAR STEEL DRINKING FOUNTAIN ACCESSORIES

97887C
Non-Locking Hose Bib
This kit will modify LK4400 Series Pedestal Fountains to provide the added ability to connect garden hoses or fill pails in outdoor applications. Ideal for golf courses, ball parks, and swimming pools for irrigation purposes.

97889C
Locking Hose Bib
Same as a Hose Bib Kit but with a panel and a door that can be secured with a standard padlock (not included) to minimize tampering.

97890C
Direct Bury Kit
Makes rough-in and installation easier for all models of non-freeze resistant tubular fountains. Opening in adaptor allows for simplified routing of water supply and drain into the fountain body. 3/4" rods provide added stability.

Tubular Steel Drinking Fountains Color Options

Now Available In 16 Colors!

Elkay Tubular Steel Drinking Fountains are now available in a choice of 16 colors! In addition to standard textured evergreen, choose from 15 new colorful options all with a textured river finish.

REMOTE WATER CHILLERS

ER5/ER10

THIRD PARTY
CERTIFIED
TO NSF/ANSI 61
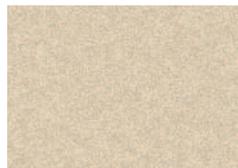

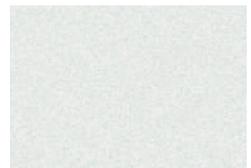

Standard Features
- **Converts any Drinking Fountain into a Water Cooler**.
- One Chiller **Can Service Up To Three Fountains**.
- **Rated For Indoor Service**.
- **Galvanized Steel Cabinet**.
- **Hermetically Sealed Compressor**.

Uses

Schools, Offices — Convert existing wall fountains into refrigerated water coolers by installing the compact chiller within, or behind building walls.

Factories — Save floor space and protect water chiller from damage by installing chiller overhead and out of the way.

Chillers used in non-drinking water applications are not covered under warranty.

ECH8

THIRD PARTY
CERTIFIED
TO NSF/ANSI 61

Multiple-Outlet Capacities
Water chiller capacity to provide 50ºF drinking water is based on adequately insulated water supply lines and stations positioned no farther than 15 feet from chiller.
