## Efficacy for SaniGuard Dry on Contact Sanitizing Surface Spray

ITEM: 52480

Info Provided by DEM Technology, LLC

### Virucidal Efficacy

1. Adenovirus type 4
2. HIV – 1 (AIDS Virus)
3. Influenza – A/Brazil
4. Influenza A/PR
5. Influenza A/Hong Kong
6. Respiratory Syncytial Virus (RSV)
7. Rubella
8. Vaccinia
9. Hepatitis B (HBV)
10. Herpes Simplex Type 1
11. Herpes Simplex Type 2
12. Norovirus (Norwalk Virus)

### Fungicidal Efficacy

1. Trichophyton Mentagrophytes
2. Aspergillus Niger (Mold & Mildew)
3. Candida Albicans

### Bacteriacidal Efficacy

- |  |   |
|--|---|
| 1. Pseudomonas Aeruginosa                            | 21. listeria monocytogenes                              |
| 2. Staphylococcus Aureus                             | 22. Pasteurella muliocida                               |
| 3. Staphylococcus Aureus<br>(MRSA)                   | 23. Proteus mirabilis                                   |
| 4. Staphylococcus Aureus<br>(VISA)                   | 24. Salmonella enteritidis                              |
| 5. Salmonella Choleraesuis                           | 25. Salmonella Schottmuelleri                           |
| 6. Acinetobacter<br>Calcoaceticus                    | 26. Salmonella Typhi                                    |
| 7. Bordetella bronchiseptica                         | 27. Salmonella Typhimurium                              |
| 8. Brevibacterium<br>Ammonagenes                     | 28. Salmonella Choleraesuis                             |
| 9. Chlamydia Psittaci                                | 29. Serratia Marcescens                                 |
| 10. Enterobacter Aerogenes                           | 30. Shigella Dysenteriae                                |
| 11. Enterobacter Cloacae                             | 31. Shigella Sonnei                                     |
| 12. Enterococcus faecalis<br>(Vancomycin Resistant)  | 32. Shigella Flexneri                                   |
| 13. Enterobacter Coli                                | 33. Staphylococcus<br>Epidermidis                       |
| 14. Escherichia Coli                                 | 34. Streptococcus Faecalis                              |
| 15. Escherichia Coli<br>(Methicillin Resistant)      | 35. Streptococcus Faecalis<br>(Methicillin Resistant)   |
| 16. Fusobacterium<br>necrophorum                     | 36. Streptococcus Pyogenes                              |
| 17. Klebsiella Pneumoniae                            | 37. Pseudomonas Aeruginosa                              |
| 18. Klebsiella Pneumoniae<br>(Methicillin Resistant) | 38. Streptococcus Faecalis<br>(Vancomycin Resistant)    |
| 19. Proteus Vulgaris                                 | 39. Xanthomonas axonopodis<br>pv. Citri (Citrus Canker) |
| 20. Legionella pneumophilla                          |   |
